

Veterinary Certificate For Horses

INSTRUCTIONS TO VETERINARIAN: It is required in every case that each horse shall be examined outside the stall and that it should be made to move about to demonstrate soundness of limbs and freedom of action. Horses having vicious habits, that have suffered recurrent attacks of colic or bleeding, that have had tuberculosis or that have been previously nerved, are not insurable. Careful observation and enquiry should be made as to housing conditions and the presence of contagious or infectious disease.

I _____ do hereby certify that I am a graduate Veterinarian holding a current license to practice by the State of _____ and that I have this day examined the _____ Horse(s)
Owned by _____ Address _____

Name of Horse & Breed	Marking, Tattoo, Registration	Age	Color	Sex	Sire	Dam
-----------------------	-------------------------------	-----	-------	-----	------	-----
